FOREWORD

The information contained in this service manual has been prepared for the professional automotive technician involved in daily repair operations. This manual does not cover theory of operation, which is addressed in service training material. Information describing the operation and use of standard and optional equipment is included in the Owner's Manual provided with the vehicle.

Information in this manual is divided into groups. These groups contain general information, diagnosis, testing, adjustments, removal, installation, disassembly, and assembly procedures for the components. To assist in locating a group title page, use the Group Tab Locator on the following page. The solid bar after the group title is aligned to a solid tab on the first page of each group. The first page of the group has a contents section that lists major topics within the group. If you are not sure which Group contains the information you need, look up the Component/System in the alphabetical index located in the rear of this manual.

A Service Manual Comment form is included at the rear of this manual. Use the form to provide Chrysler Corporation with your comments and suggestions.

Tightening torques are provided as a specific value throughout this manual. This value represents the midpoint of the acceptable engineering torque range for a given fastener application. These torque values are intended for use in service assembly and installation procedures using the correct OEM fasteners. When replacing fasteners, always use the same type (part number) fastener as removed.

Chrysler Corporation reserves the right to change testing procedures, specifications, diagnosis, repair methods, or vehicle wiring at any time without prior notice or incurring obligation.

NOTE: The acronyms, terminology and nomenclature used to identify emissions related components in this manual may have changed from prior publications. These new terms are in compliance with S.A.E. recommended practice J1930.

GROUP TAB LOCATOR

Introduction

0 Lubrication and Maintenance

2 Front Suspension and Axle

3 Rear Suspension and Axles

5 Brakes

6 Clutch

	page		page
DESIGNATIONS, LABELS/PLATES, CODES AND DIMENSIONS	1	MEASUREMENT AND TORQUE SPECIFICATIONS	11

DESIGNATIONS, LABELS/PLATES, CODES AND DIMENSIONS

INDEX

	page		page
Engine and Transmission/Transfer Case Identification	5	Vehicle Designations	1
International Vehicle Control and Display Symbols ..	5	Vehicle Dimension Data	5
Major Component Identification	5	Vehicle Identification Number (VIN) Plate	4
Trailer Towing Specifications	5	Vehicle Load Data	5
Vehicle Code Plate	4	Vehicle Safety Certification Label	4

VEHICLE DESIGNATIONS

The Vehicle Code Designations chart lists the vehicle description and code for Cherokee and Wrangler vehicles. The codes are used to identify vehicle types in charts, captions and in service procedures. The vehicle codes are different than the Vehicle Identification Number (VIN) or the wheelbase/model code.

The following illustrations shows the labels, decals and plates as well as locations on each vehicle.

VEHICLE CODE DESIGNATIONS

VEHICLE DESCRIPTION	CODE
CHEROKEE - 2DR/4WD	XJ
CHEROKEE - 4DR/4WD	
CHEROKEE - 2DR/2WD	
CHEROKEE - 4DR/2WD	
WRANGLER - 4WD	YJ
